

Neuromuscular, Biopsy and EMG Rotations Evaluation Form

Fellow:

Months:

Your perception of the effectiveness of this rotation is important. Responses will be used to evaluate rotations in an ongoing fashion and to suggest changes and improvements. Collective resident comments will be made available to faculty in such a way that anonymity is maintained.

Indicate your agreement/disagreement with the following statements regarding your **rotation** experience.

1. The daily workload was manageable.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
--------------------------	--------------	-----------------------------------	-----------	--------------------

2. My attending(s) used patient cases as informal teaching opportunities.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
--------------------------	--------------	-----------------------------------	-----------	--------------------

3. The rotation exposed me to an adequate number of patients and a variety of illnesses.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
--------------------------	--------------	-----------------------------------	-----------	--------------------

4. The rotation provided opportunities to discuss moral, ethical, legal, social, and economic issues.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
--------------------------	--------------	-----------------------------------	-----------	--------------------

5. The rotation provided me with ample opportunities to evaluate inpatients and outpatients of all ages with a wide variety of neuromuscular disorders:

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
--------------------------	--------------	-----------------------------------	-----------	--------------------

6. The rotation provided me with ample opportunities to perform and interpret muscle biopsies & nerve biopsies:

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
--------------------------	--------------	-----------------------------------	-----------	--------------------

7. The rotation provided me with ample opportunities to perform and interpret NCS/EMG, SFEMG and autonomic tests procedures

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
--------------------------	--------------	-----------------------------------	-----------	--------------------

8. Goals and objectives for this rotation were reviewed during orientation and at the beginning of the rotations.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
-----------------------	--------------	--------------------------------	-----------	--------------------

Indicate your agreement/disagreement with the following statements regarding your experience with the **program's educational conferences**.

1. Participation in Journal Club exposes me to new findings in neuromuscular medicine and evidence-based medicine.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
-----------------------	--------------	--------------------------------	-----------	--------------------

2. The rotation provided me with ample opportunities to participate in the K-30 research programs:

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
-----------------------	--------------	--------------------------------	-----------	--------------------

3. The Pathology Conferences, the EMG Conferences, Neuromuscular, Conferences, Rehabilitation Conferences and Grand Rounds cover a wide range of topics related to neuromuscular medicine.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
-----------------------	--------------	--------------------------------	-----------	--------------------

4. The Pathology Conferences, the EMG Conferences, Neuromuscular, Conferences, Rehabilitation Conferences and Grand Rounds address the basic science foundation of neuromuscular medicine.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
-----------------------	--------------	--------------------------------	-----------	--------------------

5. The tissue pathological features and its clinical correlation are reviewed and discussed with the faculty prior the muscle and nerve pathology conferences.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
-----------------------	--------------	--------------------------------	-----------	--------------------

6. The correlation of studies to clinical/pathological features is discussed in the muscle and nerve pathology conferences.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
-----------------------	--------------	--------------------------------	-----------	--------------------

7. The in-service examinations and subsequent review sessions are useful to my board preparation.

Strongly Disagree (1)	Disagree (2)	Neither Agree nor Disagree (3)	Agree (4)	Strongly Agree (5)
-----------------------	--------------	--------------------------------	-----------	--------------------

List strengths/weaknesses of this rotation:

Your suggestions for improvement of this rotation:
