The Lambert-Eaton LEMS Family Association

Bonnet Creek West Foyer

We are here to increase awareness of Lambert-Eaton Myasthenic Syndrome (LEMS) in the medical, research, academic, and general public communities. Our goal is increased visibility, study, and research, leading to quicker, more accurate diagnosis and new, better treatments for LEMS.

UCB

Booth 208

UCB is a global biopharmaceutical company committed to developing innovative solutions to address significant unmet needs for people living with severe diseases. We put patients at the heart of everything we do by incorporating the individual experiences of patients and caregivers into the discovery, development, and delivery of our medicines. Our purpose is to create value for patients, their families and society by elevating lives through our medicines now and in the future. For decades, we've focused on creating solutions for people living with neurological and immunological diseases, advancing medicines that significantly improve lives.

Ultragenyx Pharmaceutical Inc.

Booth 212

Ultragenyx is a biopharmaceutical company committed to bringing novel therapies to patients for the treatment of serious rare and ultra-rare genetic diseases. The company has built a diverse portfolio of approved medicines and treatment candidates aimed at addressing diseases with high unmet medical need and clear biology, for which there are typically no approved therapies treating the underlying disease. The company is led by a management team experienced in the development and commercialization of rare disease therapeutics. Ultragenyx's strategy is predicated upon time- and cost-efficient drug development, with the goal of delivering safe and effective therapies to patients with the utmost urgency. For more information on Ultragenyx, please visit: www.ultragenyx.com.
